

Press release

## Dr. Georg Busche is a new member of Leading Implant Centers

**Zug/Aachen, 11<sup>th</sup> November 2015 | Implantologists who have been verifiably certified to the highest level in their respective scientific association present themselves on this new international platform. The latest member joining the circle of the best is Dr. Georg Busche from Aachen in North Rhine-Westphalia/Germany.**

### **Patients need guidance**

Patients facing an implantological treatment would like to be sure to find the latest dental care, the highest quality implants and the best dental specialist whom they can trust with their problems.

However, for the patient it is difficult if not even impossible to assess and evaluate the qualifications of an implantologist due to the many educational opportunities available, with all the various diplomas, certificates and statements. But the fact is that only a handful of all licensed dental specialists are at the highest quality training and certification level of their respective scientific associations in oral implantology.

### **Clear entry criteria guarantee quality**

With the co-operation of a scientific advisory board, Leading Implant Centers has developed strict entry criteria to ensure that the specialists it lists have verifiably been educated and certified to the highest level in the field of oral implantology within their respective scientific association. Furthermore, all members have a minimum of 4 years of practical experience in oral implantology with at least 200 successful treatment cases.

It is the aim of the internet portal to offer patients and interested individuals a platform where they can reliably find an assembly of the best specialists in oral implantology.

### **Dr. Georg Busche – a gain for Leading Implant Centers**

With Dr. Georg Busche, owner of the “Dental practice in the medical center at Theatre Square” from Aachen in North Rhine-Westphalia/Germany, another highly respected expert in oral implantology joins the internet portal Leading Implant Centers. The internationally recognized implantologist has proven that he is not only highly engaged for his own further education but also equally conscientious of the qualification requirements of future implantologists. Many awards impressively prove this.

### **Always on the latest scientific level**

Extensive practice experience as well as profound know-how and many years of experience at the latest scientific level, complimented by constant participation in

advanced training and education, as well as further training and continuous education are the requirements that an implantologist needs to repeatedly demonstrate in order to gain these highest certificates and awards from their specific scientific associations in implantology firstly, but then also to earn it anew again and again. For many years Dr. Georg Busche has fulfilled these requirements.

He is a well established dentist from Aachen in North Rhine-Westphalia/Germany. Next to implantology he also offers vast dental care in further fields of dentistry. With his membership, Leading Implant Centers is enriched with yet another qualified implantologist. You will find his profile on [www.LeadingImplantCenters.com](http://www.LeadingImplantCenters.com).
